

Welcome to Bygg Broar i Norr

I NORR
BYGGBR♥AR

A day for new contacts, new thoughts and new insights!

Bygg Broar is a theme day dedicated to diversity and sustainability in working life. Bygg Broar is an innovative platform designed to bridge the gap between different societal, business and cultural backgrounds, different needs, generations, skill sets, interests etc. When people from different walks of life interact new ideas are created and new co-operations start. Bygg Broar develops people, businesses and society by bringing together people who do not normally meet.

BridgeBuildingTeams

Organisations, companies etc can create a “Brobyggarteam”. A team consists of 10-14 people. The more diverse it is the stronger it will be. Therefore invite - in addition to interested co-workers - people from other walks of life. At the time of the application you only need to name two contact people. The rest of the participants you may add later. Would you and your colleagues/friends like to participate with a BridgeBuildingTeam please contact Anders Wistemar, anders@awance.se, 070-644 84 08
